**SANTHOSH RAM-KUMAR
THIRUCHENDRU**

has successfully completed the online Specialization

Edge AI for Microcontrollers

In this Specialization, learners developed the core skills required to design and build edge AI solutions for embedded systems. They not only covered the technical detail of training AI models for resource constrained devices, but also gained an understanding of the business value and real world applications of this technology. Learners completed comprehensive assessments throughout the program to verify their knowledge.

Shawn Hymel,
Instructor, Edge Impulse

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
